

here are several kid-friendly websites where children can research and learn about conservation of resources. These websites offer educational content and interactive activities to make learning about conservation fun. Here are some recommendations:

1. **National Geographic Kids** (kids.nationalgeographic.com): National Geographic offers a dedicated website for kids with articles, videos, and games on various conservation topics.
2. **NASA Climate Kids** (climatekids.nasa.gov): This site by NASA provides resources for children to learn about climate change and its impact on the planet. It includes games, videos, and educational resources.
3. **EPA Student Center** (www.epa.gov/students): The U.S. Environmental Protection Agency (EPA) has a student center with resources and information about environmental conservation, including air, water, and land.
4. **Smithsonian's National Zoo** (nationalzoo.si.edu): The Smithsonian's National Zoo website offers information about wildlife conservation, endangered species, and animal care. It's a great resource for learning about the importance of preserving biodiversity.
5. **The Nature Conservancy Kids** (www.nature.org/en-us/what-we-do/our-insights/perspective/kids/): The Nature Conservancy has a section dedicated to kids with articles, videos, and activities related to conservation and nature.
6. **World Wildlife Fund (WWF) Kids** (www.worldwildlife.org/kids): WWF's website provides information on wildlife conservation, endangered species, and the importance of protecting our planet.
7. **NOAA's Education Resources** (www.noaa.gov/education): The National Oceanic and Atmospheric Administration (NOAA) offers educational resources for kids, including information on ocean and environmental conservation.
8. **Kids for Saving Earth** (www.kidsforsavingearth.org): This organization's website is designed to inspire and educate children about environmental conservation through activities, lessons, and projects.
9. **Energy Kids** (www.eia.gov/kids): The U.S. Energy Information Administration (EIA) provides resources on energy-related topics, including energy conservation, for kids.
10. **PBS Kids** (pbskids.org): PBS Kids has a variety of games, videos, and activities related to science and the environment. They often feature content on conservation and ecology.
11. **Ranger Rick** (www.nwf.org/Educational-Resources/Ranger-Rick): The National Wildlife Federation's Ranger Rick website offers interactive games, articles, and resources about wildlife and conservation.

These websites are excellent resources for kids to learn about conservation of resources, environmental protection, and sustainability in an engaging and educational way. Always consider the age and reading level of the child when choosing a website to ensure that it's appropriate for their understanding and interests.
